

April 2023

Dear Friends,

Particle Accelerator started as a tribute to our friend and son, Jack Young Jr. in 2007. In the years since, it has evolved and grown to so much more. Our 17th Annual Particle Accelerator will be held Saturday June 10, 2023 in Rotary Park in downtown Putnam.

Particle is A Day of Music and Hope. Music brings us together and is an outlet to express our emotions even in our darkest times. There is always hope, and Particle is committed to continuing our mission of erasing the stigma around mental health and raising awareness about local resources available to help.

Outreach and education about depression, mental health and suicide is more important than ever. Will you join us this year?

Your sponsorship and support will still be directed to United Services, northeastern Connecticut's non-profit Community Behavioral Health Center and provider of an array of mental health, substance use and social service programs. United Services continues to experience significant increases across its programs as it responds to community mental health needs.

Particle Accelerator is a free concert featuring all genres of music for all ages. The annual festival's goal is to provide information and support for depression and suicide prevention, while promoting music and civic engagement as a healthy alternative to substance use.

Last year, many generous local businesses reached out and sponsored Particle Accelerator. Our live concert was well-attended and reached hundreds of people throughout the day.

We hope you will take the time to consider supporting this important effort to connect with our community through the power of art and music.

Tax-deductible contributions are welcomed and greatly appreciated. For more information on how to support Particle Accelerator 2023, please read the enclosed packet or contact us at info@particle.rocks.

Thank you for taking the time to learn about this very important community event!

Grace and Jack Young

Eric and Sandy Gould

Particle Accelerator Founders

The Legendary Jack L. Young, Jr.

May 8, 1980 - May 8, 2007

Jack Leon Young, Jr., 27, died May 8, 2007 in Pittsburgh, PA. Born May 8, 1980 in Putnam, CT. The Legendary Jack Young Jr. was a musician, artist, and writer. He was the Beloved son of Jack L. Young Sr. and Grace (Lannon) Young. Beloved brother of Benjamin Young. Beloved grandson of Flora B. Young and Joan Pascone. Sorely missed by scores of uncles, aunts, cousins, and friends.

His music and his passion sent him all over the world in search of something that the rest of us might not even imagine in our lifetimes. He left a bit of himself with everyone he met and was loved by more than he knew.

His friends and family, shocked and surprised at his loss, created **Particle Accelerator** in his memory, a music festival to raise awareness of suicide and depression, with proceeds benefiting **United Services, Inc.** in Dayville, CT, a comprehensive non-profit community behavioral health Center.

Particle Accelerator is an annual benefit concert with two main goals:

1. Raise money to support United Services in their mission to Create Healthy Communities and respond to the youth, family and adult social and behavioral health needs in its region.
2. Provide information and support for depression and suicide prevention, while promoting music and civic engagement as a healthy alternative to alcohol and other substance use.

The event is run by a group of local residents, business owners and musicians who donate their time, money and talent in order to bring suicide and depression awareness to the forefront. Particle Accelerator began 2007 in response to Jack's suicide.

When Jack told his family of his depression, they tried to get him help. But because Jack had no health insurance, he was turned away by local mental health clinics where he was living in Pennsylvania. Feeling hopeless, Jack died by suicide on his 27th birthday.

Determined that no more parents should lose their children, Jack's family created Particle Accelerator to honor Jack's memory, spread awareness about suicide and depression, and raise funds to help United Services in all that they do for the community, including providing outpatient mental health and substance use programs regardless of an individual's ability to pay and community training and prevention programs.

Particle Accelerator 2023 Sponsorship Levels

Particle Accelerator offers many easy levels of sponsorship for Particle Accelerator 2023, our 17th Annual benefit concert slated to take place June 10, 2023 in Rotary Park in Putnam, CT.
